- wangsus@gmail.com
- Berlin, Germany
- [LinkedIn Profile](#)

PROFESSIONAL SUMMARY

Detail-oriented and highly disciplined professional transitioning from a successful international music career into data analytics. Gained hands-on experience with data tools including Excel, SQL, Python, Tableau, and PowerPoint. Known for analytical thinking, structured problem-solving, and delivering insights clearly — both on stage and in academic settings.

PROJECTS

Spotify Music Analysis

Freelance Project | August – September 2025

Sourced and prepared data on 2,400 top Spotify hits spanning two decades, including artist details and 13 audio features.

Developed visual analyses and an interactive dashboard to highlight trends and patterns in popular music over time.

Rockbuster Stealth – SQL Analysis for Market Launch Strategy

CareerFoundry Project | April – May 2025

Analyzed a movie rental database using advanced SQL queries to support the company's transition to online streaming.

Uncovered inventory weaknesses and regional viewing trends, presenting actionable insights through visualizations to inform a competitive launch strategy.

WORK EXPERIENCE
